

Custom Branded Gift Guide

Customize your gifting campaigns and events with your company branding and core values front & center.

What is Goody for Business

Goody is a new way to send personal and business gifts with only a phone number or email address. Our business gifting platform is a first-of-its-kind tool that lets companies send and track memorable business gifts for any use case, from employee onboarding to work anniversaries and more. Our curated gift collection features on-trend, high-quality products for every occasion and price point.

Personalized gifts

with your company brand voice and values in mind.

No address needed

Gift your new team members and have gifts ship right to their door.

Create community & connection across the team from day one

Curate thoughtful kits with useful items that let team members know you care.

Automate your gifting efforts

Integrate Goody with your HR Platform and enroll in Autogifting for seamless gifting.

Why Create Custom Branded Gifts

At Goody, we're passionate about creating community.

Here's how custom branded gifts can help your business or company:

→ Acknowledgement is valuable

A thoughtful, meaningful gift can increase the awareness of your brand and values among current and future partners.

→ Employee happiness leads to retention

Appreciated and engaged employees are more productive, motivated and enthusiastic about their work and contributions.

→ Grow your community

Show clients and customers your gratitude, after all they're at the center of all that you do.

→ Highlight your company core values and culture

Demonstrate your company's values. Source gifts from brands that align with sustainability goals, support female and BIPOC founders and commit to social impact.

→ Ideas and occasions to give a custom gift:

- Client loyalty and appreciation
- Community building
- Employee onboarding
- Employee birthdays
- Employee work anniversaries
- Employee gratitude
- Special occasions or celebrations
- Events, conferences or off-sites

How Custom Gifting Works

Goody helps you curate amazing bespoke gifting experiences. Each item within our catalog features your company's custom brand logo. Once all the details and design options of the item are set by our concierge team, just send your gift digitally. Your gift recipients will enter their address through Goody and the custom gift will show up at their door. It's that easy!

➔ **Can I see virtual mockups of an item with my logo on it?**

Yes! Share your high-resolution brand logos with us in (.ai or .eps files preferred) and we'll create digital mockups for you to review, edit and approve. We'll continue to tweak until you're totally happy with the result.

➔ **How will my gift recipients know when a box has shipped?**

Goody makes it easy to keep organized with shipping and delivery updates. Your employees will receive both a text message and an email with tracking information as soon as their bespoke kits ship out.

➔ **What are best practices around collecting sizes for a branded item?**

The Goody digital gifting experience makes it easy to collect the sizes of all of your team members without any extra administrative work or forms to maintain. Please do note that orders for branded items are not placed until we have collected all of the sizes. If you're looking to purchase branded items for future new hires - we will work with you to estimate anticipated quantities based on best practices.

➔ **What are the lead time for shipping?**

Custom branded items typically have a 4-7 week lead time for production. If you're working towards a specific deadline, please communicate this to your sales rep so we can work with you on the right options to ensure we meet your expectations!
